GIMBAL MOUNTED SELF-CONTAINED DIESEL POWER TRUCKS

Permits truck to rock in all directions and maintain sure traction and contact on roughest track. Traction ring drive wheels.

WORM & GEAR DRIVES, NYLON

Positive power drive and quiet smooth operation at all speeds plus long life.

PRECISION GROUND WHEEL BEARINGS

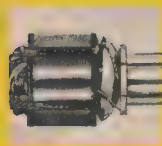

Of solid brass on all drive wheels. Minimum friction drag, long life and maximum power efficiency.

NYLON TYCOMATIC NMRA COUPLERS

Combining realism with excellent automatic coupling and uncoupling.

FEATURES LIKE THESE INSURE YEARS OF TROUBLE-FREE ENJOYMENT!

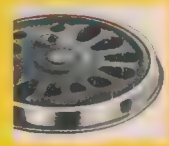

DYNA-BALANCE 5 POLE MOTORS

Tyco-made precision motors deliver maximum electric consumption. 5 pole motors assure smooth operation even at "crawl" speeds and through to top speeds.

AUTHENTIC WORKING VALVE GEAR

Provides prototype realism with perfect detail.

DRIVE WHEEL RIMS OF PLATED BRASS

Brass for maximum conductivity with realistic nickel plate for beauty.

ALL CARS SCIENTIFICALLY WEIGHTED

Designed for best roadability at all speeds without excessive drag.

FREIGHT HANDLING DEPOT with operating tractor

Designed for use with any HO layout, battery operated. It is not a kit. Installs in minutes. Special, all-metal spacing plate positions track and locks depot platform and unloading ramp into proper car clearance position. Both the tractor and tractor blade move in sequence to perform unloading operation. Specially designed control switch provides momentary push-button operation . . . or with a simple twist of the button may be set for continuous action. No. T893 Less Batteries \$6.98

MORE THAN EVER...the greatest thing for wheels

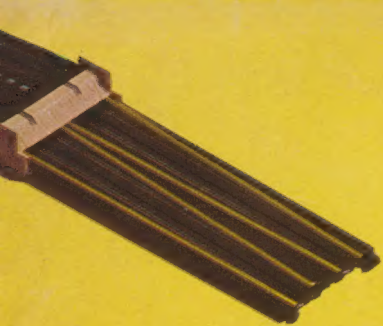

TYCO[®]-lok

(Patent Pending)

ROADRACING TRACK

The exclusive, click-together ease of setting up or changing a road racing course with TYCO-lok track has already made it the top favorite with true HO scale road racing fans. And that's just the beginning. Stable electrical contact... superior surfacing and smoothness are equally outstanding TYCO-lok features. But there's still more. With today's TYCO-lok track and its line-up of accessories you can do things you wouldn't dare attempt with any other track. For example... with TYCO-lok you can make twin spirals 10 feet tall or taller. The race-courses you can "click-together" with TYCO-lok will challenge your imagination.

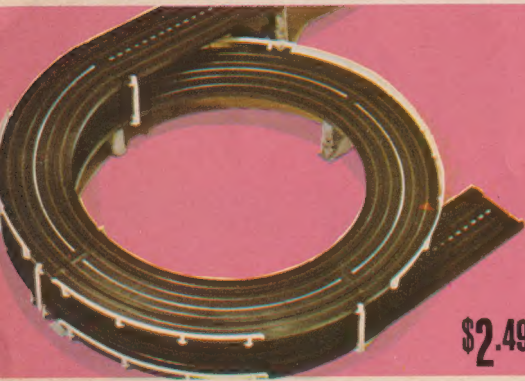

JUMP TRACK

S5758

9" Straight

A two-piece set consisting of track "adapter" and 9" jump receiving section track which re-tracks the cars. It's a skill-challenger . . . but not a frustrator. Can be used wherever any TYCO 9" straight track would be used.

\$1.49

SPIRAL CLIMB KIT

S896

As illustrated, with this kit it is possible to create a complete two-level spiral up and down again from 4 pieces of 9" straight TYCO-lok track and 6 pieces 9" curved. Kit consists of 1 - 6 piece pier set, 1 3/4" pier footing, 6 - 2" track-lok struts. (Track not included)

\$2.49

6" LAP COUNTER

S5757

Proved by thousands in use to be the most reliable HO scale lap counter ever engineered at so low a price. Spring-loaded, hair-trigger action for accurate lap count up to 50 laps with automatic flag finish. Also records laps-to-go.

OBSTACLE HAZARD SECTION

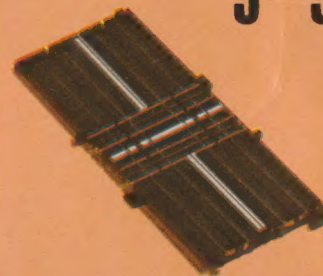

S5759

3" Straight

A trap for the unwary . . . but just another challenge for the skillful. Give an extra zip to your HO race course with one or more of these Hazard Sections and watch the action.

\$.98

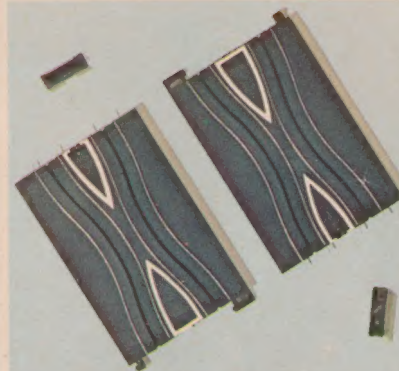

9" 90° ROAD & ROAD CROSSING

S5755

The perfect piece for dare-devil action and unusual race course layouts. Equipped with exclusive TYCO-lok click-together ease of assembly in all four directions, of course.

\$2.98

DUBBL CHICANE

4 1/2" ADAPTER SECTION (PAIR)

S5756

It's an exciting double chicane. It adapts ordinary (Type AU) track to TYCO-lok. Or it can be used as a double chicane with Type AU track. Easy instructions and clips for use with Type AU track included.
